

ボールキャスター

BALL CASTER

F-C

F-C-8Y

F-C-8YH
F-C-8Y

- 特 徴**
Feature
- ボールキャスターを使用する事で搬送物にかかる摩擦が「滑り摩擦」から「転がり摩擦」に変わるため、搬送物を軽く動かせます。
 - 豊富なバリエーションで様々な環境に対応。取付高さを低く抑える用途に最適。
 - 搬送物の大きさや種類、搬送速度、使用環境等の各種条件に合わせて、お選びください。
- By using a ball caster, the friction applied to the conveyed object changes from "sliding friction" to "rolling friction", making it possible to move the conveyed object lightly.
- A wide range of variations for various environments. Ideal for applications where the mounting height can be kept low.
- Please select according to various conditions such as the size and type of conveyed items, conveying speed, and usage environment.

用 途 ●金型交換用台車・工場内の搬送ライン・台車・作業台など

Specific Use ●Carts for changing molds, transfer lines in factories, trolleys, workbenches, etc.
